

Universal Gondola

With 25 years experience of supplying shop racking and gondola systems, Alser (UK) Limited is proud to present its' own Universal Gondola Shelving System.

Whether you are looking for a new Gondola Shelving System, or extending an existing one, we can offer our customers a design and layout facility if required using our in-house CAD system. We can install the equipment if requested or just deliver if preferred.

Gondola Shelving

Shopfitting

Alser Gondola Shelving is compatible with a number of major, 50mm pitch, UK and European systems, including TegoMetal.

Designed for strength, durability, ease of assembly and operational reliability, the Alser system is comprised of a comprehensive choice of components which can be combined to meet the requirements of any gondola storage application

Wide range of gondola shelving to meet all your requirements for wall and gondola bays.

Back panels can be supplied in plain or perforated styles.

Uprights are heavy duty 80x30 tube and can be supplied in varying stock lengths.

Bay sizes are stocked in 665, 1000 and 1250mm widths.

Shelf depths are 200, 300, 370, 470 and 570mm

Multi-position brackets to suit all shelf sizes, allowing you to present your product in a variety of ways.

Clear EPOS ticket rails with colour inserts if required.

Heavy duty back bars and hooks available.

Complete range of shelf accessories such as wire risers and dividers.

Full range of EPOS hooks for perforated back panels.

Fast, efficient delivery service for stock items.

Bespoke projects undertaken.

Joinery End Panels, Shelf Edges, Top Caps, Slat Shelves, Slat Panels and Counter Tops also available through our in-house joinery factory.

All equipment has been fully tested to the highest standards and offers all the benefits and quality of its' counterparts, but at a very competitive price point.

Higher discounts are available for quantity purchases.

Dealer enquiries are welcome.
