

# Mezzanine Floors

*Alser's Mezzanine Floors are highly versatile to include single and multi-tiered steel flooring systems.*

*Integrated Mezzanine systems better utilise space, helping to increase processing efficiency, and are now being installed in some of the largest warehousing and distribution centres in the UK and Worldwide. Effectively utilising upper areas of the Warehouse which previously were dead space*

Businesses today are commercially driven for more productivity and flexibility from their current facilities. The demand for mezzanine floors in the manufacturing and production industries continues to grow.

Mezzanine floors are ideal for space optimisation in all areas of business un-locking potential in the following ways:

Offering business increased productivity and flexibility within their current facilities

Potential to raise offices to a first or second floor thus providing increased production space on the ground floor

Offers additional storage within your existing business
